## IAN'S INSTRUMENTS

*Interesting instruments used on the FunMusic recordings... from the collection of Ian Blake*

---

### XAPHOON

The xaphoon (pronounced *za-foon*) is a wind instrument. It resembles a chalumeau, an early form of clarinet. It uses a tenor saxophone reed, which is a big reed for such a small instrument, so the sound of the xaphoon is very mellow.

You can hear the xaphoon being played in *Grimstock* (Transport CD)
